

To all the people of Keystone Homes

First of all I wanted to say we were very pleased with our home. My husband did his homework on a lot of different homes and of course Keystone Homes came out to be number 1 with us. And if anyone is interested in a modular home we recommend Keystone. I think all Keystone workers should be recognized for all their hard work they really do. From the people who build the home, and bring the home, right down to the finishers. We have the most respect for them. And on the other hand they have the most respect for the customer too.

To the Builders: Thank-you for doing such a wonderful job building our home.

To the Delivery guys: When our home was delivered you had the most respect. You treated our home like it was your home. You were very careful with it. If I had questions you took time & answered them. We got to walk through our home after it was on the foundation. I also have to add our children were watching when our home came and they even took time out for them. Thank you.

To the finishers: We were very pleased with the inside & outside of our home. And to any other customer being concerned about something that is not to your liking or if there is any miscommunication the guys are more than glad to come back and fix it or make it right even with a smile. Thank-you everyone for helping our dream come true.
